

## GREATER ESSEX COUNTY DSB SCHOOL BOARD VENTILATION PROFILE

School boards are optimizing air quality in schools through improved ventilation and filtration. Implemented measures are dependent on the type of ventilation and feasibility within the context of school facilities and related building systems. This is a key element in the multiple protective strategies being employed to reduce the risk of COVID-19 transmission and support healthier and safe learning environments for students and staff.

### MEASURES TO HELP REDUCE TRANSMISSION RISK IN INDOOR SETTINGS

Ventilation: Increasing the flow of outdoor/fresh air for diluting the concentration of any infectious particles.

Filtration: Involves the use of different types of fibrous media designed to remove particles from the

### SCHOOL BOARD VENTILATION STRATEGY

- Air filtration units have been installed in all teaching and office spaces with only natural or exhaust ventilation
- Forced air ventilation systems in all school operate from 4:30 am until 5:30 pm to ensure buildings are flushed out prior to the start of school. MERV 13 filters are being used in all systems with regular filter
- Outside Air has been maximized in all forced air ventilation units while ensuring occupant comfort.
- All schools with natural or exhaust ventilation only will receive forced air ventilation systems prior to December 31, 2021. These spaces will use air filtration units until this work is complete.

# GREATER ESSEX COUNTY DSB School Board Ventilation PROFILE

## SCHOOL BOARD WIDE INVESTMENTS

2020-21 School Year

Ventilation Funding\* | \$12.7M

2021-22 School Year

Ventilation Funding\* | \$6.9M

10

Ventilation projects completed

31

Ventilation projects in progress / planned

10

Schools receiving an investment, which is 14%  
of total schools in the board.

30

Schools to receive an investment, which is 43%  
of total schools in the board.

Note: \*This includes includes spending from dedicated ventilation programs, federal-provincial funding, provincial renewal funding and supplemental funding from other board sources.

STANDALONE HEPA FILTER UNITS DEPLOYED | 824
