

Greater Essex District County School Board

Policy: Community Use of School Facilities (CUS/Rentals)

Reference No:P-PL-03

Community Use of Schools is an initiative that supports short-term access to school space outside of school hours.

The Greater Essex County District School Board encourages the use of schools as a community facility for not-for-profit and community groups. It is recognized that schools are primarily for the instruction of students, and community use should not interfere with the daily instructional program. The Board maintains the right to protect and maintain its schools and grounds.
