

Business SHSM

Over a third of Canada's workforce is employed in the fields of trade and commerce, finance and insurance, administration and support, and real estate and leasing. The business sector, the central pillar of Canada's economy, is bursting with opportunities, from positions as accountants and clerks to administrators and retailers.

Due to globalization and new technology, the business sector also offers opportunities to young entrepreneurs to aim at the international market. As long as there is commerce, qualified and knowledgeable workers in business will find prospects either in one of Canada's prospering companies or as an entrepreneur in one of their own.
