

# mySTEM

one program, your pathway

Belle River District High School's mySTEM is a personalized, integrated program that prepares students for post-secondary pathways in Science, Technology, Engineering and Mathematics. Students in the program will choose to specialize in one of three areas:

## Medical Science & Natural Science

## Engineering, Robotics, Computer Science, and Mathematics

## Digital Arts & Design Technology

### THE PROGRAM:

Students registered in the mySTEM program will:

- complete 12 required courses
- participate in at least 3 extension activities outside of the classroom each year to enhance their learning (field trips, provincial competitions industry-relevant training and more)
- participate in Mentorship/ Career exploration activities
- earn a Belle River District High School STEM certificate upon Graduation.
- be in the position to earn a Specialist High Skills Major designation and its many benefits.

*The strength of mySTEM lies in the passionate and dedicated teaching staff of BRDHS who have an established curriculum program and a commitment to providing students with rich and challenging learning experiences. Upon completion of this program, students will have the foundation for excellence in any STEM-related post-secondary pathway.*
