Partners in Learning Guide

“Student achievement improves when parents play an active role in their child’s education, and good schools become even better when parents are involved.”

Ministry of Education (2016)

You have a tremendous impact on your child’s learning. We have created this guide to support you and the GECDSB’s mission which focuses on excellence in education by building confident learners, engaging with our communities and demonstrating ethical stewardship.

We are building tomorrow together – every learner every day!

Home Support

Look for the house symbol for ideas and activities to try at home to support learning.
# LANGUAGE

## Grade 3

### Oral Language

By the end of Grade 3, students will:

- Listen in order to understand and respond appropriately in a variety of situations for a variety of purposes
- Use speaking skills and strategies appropriately to communicate with different audiences for a variety of purposes
- Reflect on and identify their strengths as listeners and speakers, areas for improvement, and the strategies they found most helpful in oral communication situations

In the classroom, students may:

<table>
<thead>
<tr>
<th>Overall Expectations In Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Talk about movies, plays, video games, etc.</td>
</tr>
<tr>
<td>Perform songs, poems, raps</td>
</tr>
<tr>
<td>Discuss and debate ideas and opinions</td>
</tr>
<tr>
<td>Listen to others</td>
</tr>
<tr>
<td>Retell stories</td>
</tr>
<tr>
<td>Share ideas and ask relevant questions</td>
</tr>
</tbody>
</table>

Opportunities to continue the learning at home

- Encourage your child to ask questions
- Ask your child questions to find out how they feel and what they think
- Together, discuss thoughts and feelings
- Talk about books you have read with your child
- Encourage discussion about current events
- Discuss the overall message of movies, commercials and media

---

### Reading

By the end of Grade 3, students will:

- Read and demonstrate an understanding of a variety of literary, graphic, and informational texts, using a range of strategies to construct meaning
- Recognize a variety of text forms, text features, and stylistic elements, and demonstrate understanding of how they help communicate meaning
- Use knowledge of words and cueing systems to read fluently
- Reflect on and identify their strengths as readers, areas for improvement, and the strategies they found most helpful before, during, and after reading

In the classroom, students may:

<table>
<thead>
<tr>
<th>Overall Expectations In Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>Read a variety of fiction and non-fiction material</td>
</tr>
<tr>
<td>Make predictions</td>
</tr>
<tr>
<td>Retell a story giving important details</td>
</tr>
<tr>
<td>Make inferences by using clues from the text</td>
</tr>
<tr>
<td>Make connections to themselves, texts and the world around them</td>
</tr>
<tr>
<td>Discuss what strategies help them become better at reading</td>
</tr>
<tr>
<td>Read with their teacher in a small group</td>
</tr>
</tbody>
</table>

Opportunities to continue the learning at home

- Read aloud to your child
- Encourage your child to read on vacation or during a long wait at the doctor’s office
- Encourage your child to read for a purpose (e.g. recipes, instructions, manuals)
- Visit bookstores and libraries with your child
- Play word games (e.g. crosswords, scrabble)
### Writing

**By the end of Grade 3, students will:**

- Generate, gather and organize ideas and information to write for an intended purpose and audience
- Draft and revise their writing, using a variety of informational, literary and graphic forms and stylistic elements appropriate for the purpose and audience
- Use editing, proofreading, and publishing skills and strategies, and knowledge of language conventions, to correct errors, refine expression, and present their work effectively
- Reflect on and identify their strengths as writers, areas for improvement, and the strategies they found most helpful at different stages in the writing process

**In the classroom, students may:**

- Write biographies, fables, reports or persuasive pieces
- Organize ideas for writing using a writing framework
- Plan, write, edit and revise their writing
- Develop spelling strategies in authentic writing
- Select and explain pieces of their best writing

**Overall Expectations In Action**

- Opportunities to continue the learning at home

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Media Literacy**

**By the end of Grade 3, students will:**

- Demonstrate an understanding of a variety of media texts
- Identify some media forms and explain how the conventions and techniques associated with them are used to create meaning
- Create a variety of media texts for different purposes and audiences, using appropriate forms, conventions and techniques
- Reflect on and identify their strengths as media interpreters and creators, areas for improvement, and the strategies they found most helpful in understanding and creating media texts

**In the classroom, students may:**

- Identify messages in children’s advertisements
- Express thoughts and feelings about movies, cartoons, songs, commercials and/or video games
- Identify points of view
- Suggest different view points
- Create media texts using a sequence of pictures to tell a story

**Overall Expectations In Action**

- Opportunities to continue the learning at home

<p>| | |</p>

# MATHEMATICS

## Grade 3

### Number Sense and Numeration

**By the end of Grade 3, students will:**

- Read, represent, compare, and order whole numbers to 1 000, and use concrete materials to represent fractions and money amounts to $10
- Demonstrate an understanding of magnitude by counting forward and backwards by various numbers and from various starting points
- Solve problems involving the addition and subtraction of single- and multi-digit whole numbers using a variety of strategies, and demonstrate an understanding of multiplication and division

**Overall Expectations**

- Use base ten materials to represent numbers into the hundreds
- Count forward using different increments to 1 000 from various starting points
- Use concrete materials and drawings to solve addition and subtraction problems

**In the classroom, students may:**

- Use standard units such as centimetre, metre and degrees Celsius to measure around the school
- Compare objects using standard units of mass and/or capacity

**Opportunities to continue the learning at home**

- Practice making multiple money combinations up to $10.00
- Use various coins to count by 5, 10 and 25
- Skip count with and without the aid of a calculator
- Play “Number Cube Twice”: Each player rolls two dice and adds the numbers shown. The higher number wins. Try this using multiplication and subtraction as well
- Play number games such as Sudoku

### Measurement

**By the end of Grade 3, students will:**

- Estimate, measure, and record length, perimeter, area, mass, capacity, time, and temperature, using standard units
- Compare, describe, and order objects, using attributes measured in standard units

**Overall Expectations**

- Use standard units such as centimetre, metre and degrees Celsius to measure around the school
- Compare objects using standard units of mass and/or capacity

**In the classroom, students may:**

- Have your child use different measuring devices (e.g. ruler, tape measure, metre stick, thermometer, scale) to measure found objects
- Compare the capacity of different containers while preparing food

---

www.publicboard.ca
### Geometry and Spatial Sense

**By the end of Grade 3, students will:**
- Compare two-dimensional shapes and three-dimensional figures and sort them by their geometric properties
- Describe relationships between two-dimensional shapes, and between two-dimensional shapes and three-dimensional figures
- Identify and describe the locations and movements of shapes and objects

**In the classroom, students may:**
- Compare 2D shapes and 3D figures based on their properties
- Solve problems involving 2D shapes and 3D figures
- Describe movement from one location to another using a grid map

**Opportunities to continue the learning at home**
- Search for examples on the Internet using such keywords as “patterns around us”
- Compose 2D shapes using smaller shapes
- Plan the route for a treasure hunt in the yard using directional language

### Patterning and Algebra

**By the end of Grade 3, students will:**
- Describe, extend and create a variety of numeric patterns and geometric patterns
- Demonstrate an understanding of equality between pairs of expressions, using addition and subtraction of one- and two-digit numbers

**In the classroom, students may:**
- Extend repeating, growing and shrinking patterns
- Determine the missing value in an equation involving addition and subtraction

**Opportunities to continue the learning at home**
- Create a repeating pattern using three colours and two shapes
- Use guess and check to determine the missing number in the equation (e.g. $25 - 4 = 15 + ?$)

### Data Management and Probability

**By the end of Grade 3, students will:**
- Collect and organize categorical or discrete primary data and display the data using charts and graphs, including vertical and horizontal bar graphs, with labels ordered appropriately along horizontal axes, as needed
- Read, describe and interpret primary data presented in charts and graphs, including vertical and horizontal bar graphs
- Predict and investigate the frequency of a specific outcome in a simple probability experiment

**In the classroom, students may:**
- Collect data by conducting a simple survey
- Interpret data in charts, tables and graphs
- Predict the frequency of an outcome in a probability experiment or game

**Opportunities to continue the learning at home**
- Survey family members about preferences and issues in their community
- Discuss charts, tables and graphs found in newspapers and magazines
- Use game situations to discuss fairness of outcomes
# SCIENCE & TECHNOLOGY

## Grade 3

### Understanding Life Systems: Growth and Changes In Plants

**By the end of Grade 3, students will:**

- Assess ways in which plants have an impact on society and the environment, and ways in which human activity has an impact on plants and plant habitats
- Investigate similarities and differences in the characteristics of various plants, and ways in which the characteristics of plants relate to the environment in which they grow
- Demonstrate an understanding that plants grow and change and have distinct characteristics

**Overall Expectations**

- **Assess ways in which plants have an impact on society and the environment, and ways in which human activity has an impact on plants and plant habitats**
- **Investigate similarities and differences in the characteristics of various plants, and ways in which the characteristics of plants relate to the environment in which they grow**
- **Demonstrate an understanding that plants grow and change and have distinct characteristics**

**In the classroom, students may:**

- Plant seeds, water them and measure their growth
- Create a slide show to share with peers the parts of plants and their uses
- Make crayon rubbings to show the vein system in leaves and how water moves in the plant

**Overall Expectations In Action**

- Visit a grocery store and talk about the parts of a plant that we eat (e.g. we eat the stem of the celery or the root of a carrot)
- Let your child plant a small garden and make them responsible for planning, planting and watering
- Talk about the foods you are eating at mealtime, the parts of the plant it is, and where it is grown

### Understanding Structures and Mechanisms: Strong and Stable Structures

**By the end of Grade 3, students will:**

- Assess the importance of form, function, strength, and stability in structures through time
- Investigate strong and stable structures to determine how their design and materials enable them to perform their load-bearing function
- Demonstrate an understanding of the concepts of structure, strength, and stability, and the factors that affect them

**Overall Expectations**

- Assess the importance of form, function, strength, and stability in structures through time
- Investigate strong and stable structures to determine how their design and materials enable them to perform their load-bearing function
- Demonstrate an understanding of the concepts of structure, strength, and stability, and the factors that affect them

**In the classroom, students may:**

- Build structures out of cards, toothpicks or recycled materials to test strength and stability
- Brainstorm a list of structures made by animals and humans
- Take a close up view of a bird nest and observe how it is woven together to create strength
- Look at pictures of structures in the environment (e.g. towers, bridges) and talk about the shapes found in the designs that make them stable and strong

**Overall Expectations In Action**

- Make structures at home using playing cards or Legos and talk about what makes them strong or stable
- Take a trip to Odette Sculpture Garden for a close up look of the cables and struts used to stabilize the Ambassador Bridge
- Have a close up look at structures in nature such as bird nests or beehives

www.publicboard.ca
### Understanding Matter and Energy: Forces Causing Movement

**By the end of Grade 3, students will:**

- Assess the impact of various forces on society and the environment
- Investigate devices that use forces to create controlled movement
- Demonstrate an understanding of how forces cause movement and changes in movement

**In the classroom, students may:**

- Watch real world videos showing forces of nature such as tornadoes or tsunamis and the destruction they may cause
- Investigate the forces that move different objects (e.g. a marble rolling down a ramp using gravity, using magnets to pick up objects)
- Design and build a device (structure) that uses force to move an object (e.g. a race car track that moves the cars by magnetic force)

**Opportunities to continue the learning at home**

- Look through the toy box and talk about the forces used to make the toys work
- Search for ways that force is used for objects in your homes (e.g. magnets used to put paper on the fridge, pushing the pedal to make your bike move, pulling the cord on the curtain to open or close it)
- Visit a playground and experience the forces at work

### Understanding Earth and Space Systems: Soils in the Environment

**By the end of Grade 3, students will:**

- Assess the impact of soils on society and the environment, and of society and the environment on soils
- Investigate the composition and characteristics of different soils
- Demonstrate an understanding of the composition of soils, the types of soils, and the relationship between soils and other living things

**In the classroom, students may:**

- Sort soil samples into living and non-living piles to investigate what soil is made of
- Grow plants in different soil types and measure their growth over time to find out what soil is best for growing plants
- Set up a compost bin in the classroom and observe the decay of fruit and vegetable scraps over time

**Opportunities to continue the learning at home**

- Set up a compost bin at home and add the new compost to your garden when it is ready
- Use a magnifying glass to search for living things in the soil
- Visit a building site where a backhoe has been used to remove several meters of soil and have a close up look at the different layers
- Visit the waterfront and look for signs of erosion

**NOTES/GOALS:**

---

www.publicboard.ca
# SOCIAL STUDIES

## Grade 3

### Heritage and Identity: Communities in Canada 1780-1850

**By the end of Grade 3, students will:**

- Compare ways of life among some specific groups in Canada around the beginning of the nineteenth century, and describe some of the changes between that era and the present day.
- Use the social studies inquiry process to investigate some of the major challenges that different groups and communities faced in Canada from around 1780 to 1850, and key measures taken to address these challenges.
- Identify some of the communities in Canada around the beginning of the nineteenth century, and describe their relationships to the land and to each other.

**In the classroom, students may:**

- Describe and compare how various groups lived in the nineteenth century.
- Use the inquiry process to investigate the challenges and successes of early communities.
- Compare and contrast early communities (location, roles, aspects of life).

**Opportunities to continue the learning at home**

- Together with your child, discuss your family heritage and its connections to your child’s in school explorations.
- Encourage your child to ask questions and use available resources, like the library, the Internet, documentaries, etc. to find answers about early communities in Canada.
- Watch and discuss a video or documentary about an early community.

### People and Environments: Living and Working in Ontario

**By the end of Grade 3, students will:**

- Demonstrate an understanding of some key aspects of the interrelationship between the natural environment, land use, employment opportunities, and the development of municipal regions in Ontario.
- Use the social studies inquiry process to investigate some of the environmental effects of different types of land and/or resource use in two or more Ontario municipal regions, as well as some of the measures taken to reduce the negative impact of that use.
- Describe major landform regions and types of land use in Ontario and some of the ways in which land use in various Ontario municipalities addresses human needs and wants, including the need for jobs.

**In the classroom, students may:**

- Identify and describe how the environment impacts life and work in Ontario.
- Use the inquiry process to investigate land and resource use in Ontario.
- Determine how landforms impact employment and politics both regionally and provincially.

**Opportunities to continue the learning at home**

- Discuss and explore current environmental issues in the news.
- Encourage your child to ask questions and use available resources like the library, the Internet, documentaries, etc. to find answers about the short and long term effects of how our community makes use of natural resources.
- Go on a walk around your neighbourhood to highlight the various land uses.

www.publicboard.ca
## THE ARTS

### Grade 3

#### Dance

**By the end of Grade 3, students will:**

- Apply the creative process to the composition of dance phrases, using the elements of dance to communicate feelings and ideas
- Apply the critical analysis process to communicate their feelings, ideas, and understandings in response to a variety of dance pieces and experiences
- Demonstrate an understanding of a variety of dance forms and styles from the past and present, and their social and/or community contexts

**In the classroom, students may:**

- Imitate movements found in their natural environment
- Create a dance with a focus on time and energy
- Identify and describe the role of dance in the community

**Overall Expectations In Action**

- Interpret stories and poems through dance
- Create movements that express the differences between creatures (e.g. elephant vs. butterfly)
- Share a dance from your cultural background with your child

#### Drama

**By the end of Grade 3, students will:**

- Apply the creative process to dramatic play and process drama, using the elements and conventions of drama to communicate feelings, ideas and stories
- Apply the critical analysis process to communicate feelings, ideas and understandings in response to a variety of drama works and experiences
- Demonstrate an understanding of a variety of drama and theatre forms and styles from the past and present, and their social and/or community contexts

**In the classroom, students may:**

- Role play parts of a story
- Use drama terms to critique
- Learn about drama works from around the world

**Overall Expectations In Action**

- Critique a movie that you have watched together
- Talk about the cultural relevance in stories and movies
- Together with your child, write a short script

#### Music

**By the end of Grade 3, students will:**

- Apply the creative process to create and perform music for a variety of purposes using the elements and techniques of music
- Apply the critical analysis process to communicate their feelings, ideas, and understandings in response to a variety of music and musical experiences
- Demonstrate an understanding of a variety of musical genres and styles from the past and present, and their social and/or community contexts

www.publicboard.ca
In the classroom, students may:

- Sing in unison with a partner and in rounds
- Represent sound using standard and non-standard notation
- Express personal responses to musical performances

**Overall Expectations In Action**

Opportunities to continue the learning at home

- Try singing in unison as partners and in rounds as a family
- Listen to a variety of musical pieces from different times and places
- Map the melody of a song in the air with your hands

---

### Visual Arts

**By the end of Grade 3, students will:**

- Apply the creative process to produce a variety of two- and three-dimensional art works using elements, principles and techniques of visual arts to communicate feelings, ideas and understandings
- Apply the critical analysis process to communicate feelings, ideas and understandings in response to a variety of art works and art experiences
- Demonstrate an understanding of a variety of art forms, styles and techniques from the past and present, and their social and/or community contexts

**In the classroom, students may:**

- Create 2D and 3D works of art using tools and techniques
- Explain how line can impact an image
- Use found objects to imitate something learned in science

**Overall Expectations In Action**

Opportunities to continue the learning at home

- Use recycled objects to create art work
- Use colour from magazines to make works that represent feelings (e.g. angry, bored, surprised, devastated)
- Use the following questions to engage in discussion with your child about a piece of art:
  - Which emotion would you connect to this art piece?
  - If this piece were huge, how would it change the message?
  - What message do you think is being shared through this artwork?

---

**NOTES/GOALS:**

---

www.publicboard.ca
HEALTH & PHYSICAL EDUCATION

Active Living
By the end of Grade 3, students will:
- Participate actively and regularly in a wide variety of physical activities, and demonstrate an understanding of the value of regular physical activity in their daily lives
- Demonstrate an understanding of the importance of being physically active, and apply physical fitness concepts and practices that contribute to healthy, active living
- Demonstrate responsibility for their own safety and the safety of others as they participate in physical activities

In the classroom, students may:
- Explore movement with equipment
- Monitor their progress towards fitness goals
- Describe how to respond to accidents and injuries

Movement Competence
By the end of Grade 3, students will:
- Perform movement skills, demonstrating awareness of the basic requirements of the skills and applying movement concepts as appropriate, as they engage in a variety of physical activities
- Apply movement strategies appropriately, demonstrating an understanding of the components of a variety of physical activities, in order to enhance their ability to participate successfully in those activities

In the classroom, students may:
- Participate in yoga or tai chi
- Practice catching and throwing different objects
- Interact positively with each other when sharing space

Healthy Living
By the end of Grade 3, students will:
- Demonstrate an understanding of factors that contribute to healthy development
- Demonstrate the ability to apply health knowledge and living skills to make reasoned decisions and take appropriate actions relating to their personal health and well-being
- Demonstrate the ability to make connections that relate to health’ and well-being, how their choices and behaviours affect both themselves and others, and how factors in the world around them affect their own and others’ health and well-being

In the classroom, students may:
- Show leadership when responding to peer pressure
- Discuss how oral health is directly related to overall health
- Discuss foods from different cultures and geographical locations
- Discuss characteristics of healthy relationships

Opportunities to continue the learning at home
- Visit the park and explore the equipment
- Have your child help with daily chores and discuss the actions needed to ensure safety of themselves and those around them
- Discuss how visible differences and invisible differences make each person unique
- Develop exercise routines that involves stretching, deep breathing and controlled movements
- Play catch using different objects
- Discuss the differences between real (the news) & fictional violence (video games & TV shows)
- Visit the dentist and brush regularly
- Discuss moderating tv and computer use
- While in a grocery store, discuss where different foods are grown or produced
FRENCH AS A SECOND LANGUAGE

“Students will communicate and interact with growing confidence in French, one of Canada’s official languages, while developing the knowledge, skills, and perspectives they need to participate fully as citizens in Canada and in the world.”

Ministry of Education, 2013 FSL Curriculum Grades 1-8

What are the advantages of learning a new language?

- Learning a second language supports a child’s continuing growth in their first language
- Students develop motivation, self-esteem, and confidence, enriched social skills, and increased cultural appreciation
- A wider variety of opportunities for future success and opportunities are available

What are the different types of French programs?

Core French

The Core French program is mandatory in all English Language schools, beginning in Grade 4. Students will receive 120 hours of French per year in Grades 4–8.

French Immersion

GECDSB offers an Early French Immersion model within several elementary schools:

- JK – Grade 1 — 100% of instruction in French
- Grades 2–5 — 80% French (Language Arts is in English)
- Grades 6–8 — 50% French (Math, Science, and Language Arts are in English)
- For subjects other than FSL that are taught in French, the expectations in each course are those outlined in the English-language curriculum policy documents.

The elementary school curriculum for Core French, Extended French, and French Immersion is designed to prepare students for success in the corresponding program at the secondary level.

How can I support my child’s learning of French?

- Talk to your child about the benefits of learning French
- Encourage your child to talk, read, and write in their first language
- Read aloud to your child in their first language
- Support your child’s exploration of French resources (e.g., books, songs, videos, museums, art galleries)
- Encourage your child to share their learning with you. They could be your teacher!

Talk to your child’s teacher about other resources

The Ontario Curriculum, Grades 1-8, Language (2006)

http://www.edu.gov.on.ca/eng/curriculum/elementary/grade1.html

Ministry of Education FSL

http://www.edu.gov.on.ca/eng/amenagement/FLS.html

www.publicboard.ca
# School Library Learning Commons

“The only thing that you absolutely have to know, is the location of the library.”

Albert Einstein

## What is available at school?
The GECDSB offers library programs with qualified Teacher-Librarians in our schools. All students have access to an up-to-date school library with collections that support curriculum, digital citizenship, inquiry, and reading for pleasure.

## Can we access library materials from home?
The GECDSB provides a “virtual library” for students they can use at school and at home — including access to eBooks, encyclopedias, research support, subscription databases, and much more.

Virtual Library Link: [https://publicboard.ca/Students/VirtualLibrary/Pages/default.aspx](https://publicboard.ca/Students/VirtualLibrary/Pages/default.aspx)

Destiny is the GECDSB program we use to search and sign out items in your child’s School Library Learning Commons. Students can log in and use this program at home to find things they want to borrow.

## www.publicboard.ca > Students > Virtual Library > Elementary Virtual Library Commons > Online Databases

**Kids InfoBits**

Kids InfoBits lets students research every topic they can imagine. It provides a safe and secure way for students to find information from magazines, books, media, and many other sources. Students can also listen to the information or save it for later use.

- **User ID:** greateressex
- **Password:** library

**Britannica School**

Britannica School is a kid-friendly encyclopedia with articles, videos, games and images. Students can search for up-to-date information they need in a safe environment.

- **User ID:** greaesse
- **Password:** grea7392

These are some examples of the databases and encyclopedias within our GECDSB collection. All GECDSB databases and encyclopedias require a login and password which your child can obtain from his or her school Teacher-Librarian.

</table>
COMMUNICATION BETWEEN HOME AND SCHOOL

“The partnership of parents and teachers is a powerful one.”
Council of Ontario Directors of Education (CODE), Parent Tool Kit

What questions can I ask my child about their day at school?

- Tell me one good thing that you learned today?
- What would you like to tell me about today?
- What was the best part of your day?
- What questions did you ask today?
- How do you feel today? Why do you feel that way?

Please feel free to contact your child’s teacher at any time through a telephone call or note whenever you feel there is a need to share or communicate.

What are ways to connect with my child’s school?

School Website/Newsletter
Check out the school newsletter or use the school’s website to check on activities and events throughout the year. Ask your child’s teacher if there is a different form of communication they use to keep in contact with the home (e.g., agenda, newsletters, websites, and EDSBY).

Meet the Staff
Start the year by meeting your child’s staff in September. Meet the Staff events occur within the first month of school. We look forward to meeting you during this informal event.

Report Cards
Elementary Progress Reports are sent home in November. The Elementary Provincial Report card will be sent home in January and the second one will be sent home towards the end of June. Sit down with your child to review their progress. Complete and discuss the back portion of the report card (setting goals and next steps) with your child before sending the signed copy to your child’s school.

Parent Teacher Interviews
Contact the school when you receive your child’s report cards to schedule a telephone conversation or in-person meeting to discuss your child’s progress with their teachers.

School Advisory Committee (SAC)
School Councils have been created to enhance students’ learning through the cooperative efforts of parents, students, staff members, and others in the community. Speak with the administration at your child’s school for more information on how to support your school’s committee.

Greater Essex County Parent Involvement Committee
The Greater Essex County District School Board Parent Involvement Committee (GECPIC) provides regular opportunities for parents to network, share ideas, offer advice and stay informed through educational presentations and relevant topics throughout the school year. GECPIC has established parental engagement as a priority and promotes communication among School Councils, parents, staff, community partners, Trustees, and the Director. To confirm dates and times visit www.publicboard.ca (Parent Involvement).

www.publicboard.ca
