

How to Import Files to Windows Movie Maker

The purpose of this tutorial is to show you how to add your desired content for your movie production. Through this tutorial you will learn how to import video, audio, and picture files.

1. Navigate to the “home” tab option in the top tool bar. Click the “Add videos and Photos” option.

2. A window with your documents will pop up. From here you can choose your desired files to import into the program. To select multiple files at once, hold CTRL on your keyboard and click on the desired files.
